

Manganese

Oxide Powder

APS 40-60µm

Manganese Oxide Powder

Mn3O4 is sometimes used as a starting material in the production of soft ferrites e.g. manganese zinc ferrite, and lithium manganese oxide, used in lithium batteries. Two useful applications of the scavenging ability of Mn oxide minerals are as geochemical exploration tools and purification agents for drinking water. In coatings, plastics, nanowires, nanofibers, and textiles In specific biogenic and bioscience applications.

Quick Facts

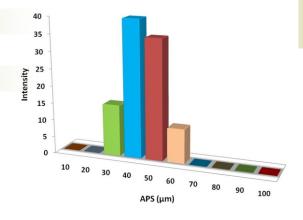

Product	•	Manganese Oxide Powder
HOGOCI	•	Manganese Oxide i owder

Stock No NS6130-12-001907

CAS 1317-35-7

99% Purity

Form Powder

Technical Specification

Formula	APS	Molecular Weight	Melting Point
Mn3O4	40-60µm	228.81g/mol	1567 °C

+1 646 470 4911
